The

JJK Gurukulam...

works towards protecting children from less privileged and dysfunctional families and lends them an opportunity to lead normal lives as they step into society. The focus areas of the Gurukulam are self-sufficiency, health, education and cultural validation by preserving Indian way of life based on Vedic Heritage and the vision that sustains it.

Working against the cycle of poverty

When it comes to poverty, unfortunately children bear most of the negativities - lack of nutrition, malnourishment, diseases, lack of education etc. Most of our children come from extremely poor families, where the breadwinner is either a domestic helper or a labourer. In such circumstances, we think that sponsoring the child's education is the significant "first step" to break this cycle of poverty.

As families struggle to provide more than one meal per day, education is considered a luxury which is not possible for these children. Children are the main victims of poverty, and young girls and boys are at high risk of abuse.

In our residential Gurukulam, the children learn how to take care of themselves and help their families and community.

Janaka Janani Kripa Gurukulam Trust (JJK Gurukulam Trust), a registered service organisation that is committed to the marginalised sections of the society. Its registered office is at Vattiyootkavu, near Guru Gopinath Natanagramam, Thiruvananthapuram, Kerala, South India. And it is managed by Swami Tattvarupananda Saraswati, a disciple of H.H. Swami Dayananda Saraswati.

Helping children dream bigger

We provide healthy vegetarian meals, a clean environment, school supplies and regular special tuition given by a teacher.

The daily schedules consist of early morning and evening prayers in Sanskrit, Yoga asanas and pranayama. The children also attend regular school to get the benefit of formal education that enables them to blend with the mainstream of life. In our residential Gurukulam, even as we take good care of the children, the focus is on enabling them to discover themselves and play their effective role in the community.

We believe it is a fundamental right for children to enjoy childhood as well as to learn to read and write and live with dignity. In our residential Gurukulam the focus remains to enable the children assume their natural order in the community, while taking good care of them.
